## Objective

Highly motivated B.Tech student (6th Semester) specializing in MERN Stack and Generative AI, seeking a challenging internship/job to apply my skills in web development and AI technologies, while contributing to organizational growth.

## Education

B.Tech (Computer Science) - RGPV, 6th Semester | Current CGPA: 7.25  
12th - Millat College, Darbhanga, Bihar Board | Percentage: 65.3%

## Technical Skills

- Web Development: MERN Stack (MongoDB, Express, React, Node.js)
- Artificial Intelligence: Generative AI
- Programming Languages: JavaScript, Python
- Tools & Platforms: Git, VS Code, Postman

## Projects

1. E-Commerce Web App - MERN Stack
  - Developed a full-stack e-commerce application with user authentication, product management, and cart functionality.
  - Implemented MongoDB for database and Express.js for server-side logic.
2. AI Chatbot - Generative AI + React
  - Built an AI-powered chatbot that responds to user queries in real-time using OpenAI API.
  - Integrated frontend in React with backend Node.js server.

## Hobbies / Interests

Exploring AI technologies, Web Development, Open Source Contribution
